technology for your  
profit

# Vario Business – tailor-made Mobile Office solutions

TSP has now been offering special IT solutions for almost two decades. We are setting new standards with our expertise and creativity, particularly in the mobile office branch.

## Vario Business – always the right choice

The new Notebook suit-case fullfills the requirements of private and professional users with innovative capability characteristics in ideal way and at very favourable conditions.

Under the designation **Vario Business** we offer an very attractive and durable suit-case, which is suitable for transportation of notebooks up to 17.1" display format with much accessories.

Comprehensive functionality offers the model **Vario Business Comfort**. On closest area highest requirements at technology and comfort in connection with fastidious design are fulfilled.

With the model **Vario Business Customized** our customers get an individually equipped suit-case in highest quality at an extremely attractive price.

## Independent laptop selection

**Vario Business** cases can be used for any type of laptop, as they are not oriented towards specific manufacturers or models. Integration or migration to another laptop model can be accomplished at any time and without our help.

Our cases have an all-purpose mounting plate and are thus designed to house your preferred notebook of all TFT sizes up to 17.1" and base area of up to 410 x 300 mm.

## Independent printer or beamer selection

The **Vario Business** case is designed in a way that allows all Canon mobile printers or mobile beamers up to 325 x 215 x 62 mm to be integrated.

This unique flexibility, for instance, allows already invested notebooks and printers to continue to be used and only be replaced by new models as the need arises.

# Optimally adapted to meet your requirements

## Flexibility is the clincher

Your Notebook can be used in a traditional way with power adapter or in battery mode on the desk. Thus all interfaces and features of your Notebook are freely accessible.

A printer with net adapter, a mobile beamer or other accessories are transported in the stowage box of the suit-case under the intermediate bottom.

The connection to the laptop is made if necessary over carried cables or more comfortably via Bluetooth.

## Long operating times are no problem

Is a mobile printer to be operated also without power connection? Then additionally a battery is needed, which together with the laptop battery over only one 220V cable can be loaded.

For specially long periods of notebook operation we offer additional batteries, which give information over indicators of battery reserves.

## Thought out right down to the last detail

For special requirements we have innovative solutions at the ready, which can be adapted on each individual situation.

Do you need a deviant case size, a 12 or 24 Volt connection for motor vehicle operation, Internet access, local data interchange via Bluetooth or an

individual support for your applications?

Talk to us - we'll achieve your solution at the usual speed to which you've become accustomed and in the high quality for which TSP is renowned.
